

# Concurrent Disorders Core Competencies Training

September 19, 2014  
Derek Leduc  
Halifax Infirmary

# Welcome and Introductions

Wanda McDonald

Manager, Mental Health, Children's Services,  
and Addictions Branch

Department of Health and Wellness

# Overview

- Acknowledgements
- Background
- Toolkit Development
- LMS Development
- Demonstration
- Additional Information
- Next Steps

# Acknowledgements

## Working Group Members

Derek Leduc, BSc, MA (Project lead)  
Health Services Manager  
Capital District Health Authority

Rachel Boehm, MA, CHE  
Program Leader – Addictions  
Capital District Health Authority

Heather Durdle, PhD  
Psychologist  
IWK Health Centre

Brenda Flemming, BScN, RN, CPMHN(c)  
Registered Nurse  
Capital District Health Authority

Kevin Fraser, MSW, RSW  
Manager – CBS  
Capital District Health Authority

Vivian House, MSW, RSW  
CD Clinical Therapist  
South West Nova District Health Authority

Joe Anne Hunter, MSW, RSW  
Manager – Adults/Seniors Mental Health  
South West Nova District Health Authority

# Acknowledgements

## Working Group Members

Cheryl Jennings, MSW, RSW  
Social Worker – Inpatient Mental Health  
Guysborough Antigonish Strait District  
Health Authority

Julie MacDonald, PhD  
Psychologist – Children’s and Youth  
Services  
Cape Breton District Health Authority

Lynn MacNeil  
Knowledge Exchange Coordinator,  
Mental Health Children Service’s and  
Addictions Branch  
Department of Health and Wellness

Lynda McAllister, MSc  
Manager, Research and Evidence-  
Informed Practice  
Addiction Services – PCHA, CEHHA, CHA

Wanda McDonald, MSW, RSW  
Manager, Mental Health, Children’s  
Services, and Addictions Branch  
Department of Health and Wellness

Clara E. Miller, MSN, RN  
Manager – Addictions & Mental Health  
Services, Community-Based Services  
South Shore District Health Authority

# Acknowledgements

## Working Group Members

Achal Mischra, MD, FRCPsych, PG Dip. CBT  
Psychiatrist – Annapolis Valley District Health  
Authority  
Assistant Professor – Dalhousie University

Gaelene Parsons, MSW, RSW  
Clinical Therapist – Addiction Services  
Cumberland County Health Authority

Janet Tomlinson, M.Ed, CCC, RCT  
Clinical Therapist  
Colchester East Hants Health Authority

## Additional Content Support and Reviews

Shaun Black, MSc, MBA  
Manager – Quality and Evaluation  
Addictions and Mental Health  
Capital District Health Authority

Ron Fraser, MD, CSPQ, FRCPC  
Head, Inpatient Detoxification Service –  
McGill University Health Centre  
Consulting Psychiatrist – Capital Health  
Addictions and Mental Health Program  
Assistant Professor – Dalhousie University  
and McGill University

# Acknowledgements

## **Additional Content Support and Reviews**

Kelly Hicks, MSc, R. Psych  
Private Practice/Consultant

Andrea Tsanos, MA  
Advanced Practice Clinician  
Centre for Addictions and Mental Health

## **LMS Reviewers**

Sandra Beumer, RN, BScN, CPMHN(C)  
Clinical Nurse Educator  
Capital District Health Authority

Laura Downing  
Medical Student  
Memorial University

## **LMS Reviewers**

Kim Hiscock, BN, RN, CPRP  
Clinical Nurse Educator  
Capital District Health Authority

Lynn MacNeil  
Knowledge Exchange Facilitator  
Department of Health and Wellness

Laura White RN, BScN, CPMHN(C)  
Clinical Nurse Educator  
Capital District Health Authority

# Acknowledgements

## Special thanks

Heather Phelan, Pharmacy Student  
Dalhousie University

Pearly Murphy, Technical Analyst  
Health Information Technology Services

Elizabeth Stephen, Clinical Therapist  
Capital Health – Addictions Program

Scott Janssen, Clinical Practice Educator  
Capital Health – Addictions Program

Nancy Snow, Clinical Practice Educator  
Capital Health – Addictions Program

Andre Robichaud, TSR  
Information Technology Services (CDHA)

Penny Logan, Manager  
Library Services  
Capital District Health Authority

*A different today. A better tomorrow.*

# Background

# Defining Concurrent Disorders

- “... where a person has both a mental health and a substance use problem” (CCSA, 2010, p. 1).
- CDs can include combinations such as:
  - an anxiety disorder and a drinking problem
  - schizophrenia and cannabis dependence
  - depression and dependence on sleeping pills
  - borderline personality disorder and heroin dependence (CAMH, 2012)
- Clients with CD often have complex needs and are difficult to treat (CCSA, 2009).

*A different today. A better tomorrow.*

# Prevalence of Concurrent Disorders

- 70-80% of clients seeking help for substance use and 15-20% of mental health clients are likely to have CD (CCSA, 2013)
- Prevalence of CD varies by services considered (Rush & Nadeau, 2011) and by substance of use and specific mental health diagnosis (CMHA, 2013)
- Rates may be as high as 75% in forensic and corrections settings (CMHA, 2013)

## Background – CD Standards

- Current healthcare system challenged to address clients with concurrent disorders
- MH and AS often had different treatment philosophies and structures
- Clients received parallel treatment, with little or no continuity of care
- Need to ensure clients and significant others at the centre of system planning

# Purpose of CD Standards

- Set a foundation for improvement
- Reduce undesired service variations
- Focus on intended outcomes and activities required to achieve them

# CD System Level Standards

- Screening
- Referral
- Assessment, treatment, discharge planning
- Continuity of care
- Capacity building
- Organizational and staff competencies
- Monitoring

## 5.0 Capacity Building

- To increase the capacity of Mental Health staff to work with individuals who are also experiencing substance-use problems, and to increase the capacity of Addiction Services staff to work with individuals also experiencing mental health disorders

## 6.0 Organizational and Staff Competencies

- To promote quality practice through the development and adoption of organizational and staff competencies for concurrent disorders

# Core Competency Training

# Purpose of the training

- To increase the knowledge and capacity of individuals working in the area of mental health and addictions
- To improve quality of practice
- To ensure a more positive and effective treatment experience for clients/patients

# CD Core Competencies Training

- Initial plan
  - Develop resource manual (toolkit)
  - Cover basic and intermediate competencies
  - Approximately 30-40 pages
- Outcome
  - Developed toolkit
  - Covers basic (core) competencies
  - 9 corresponding LMS modules
  - 257 pages

# CD Core Competencies Training

- Needs assessment conducted to explore level of competencies and training requirements
- Specific CD competencies identified (3 levels)
- Provincial working group established
- Capital Health co-led project with DHW and was supported by the DHAs/IWK
- Developed CD Core Competencies Toolkit

# CD Toolkit – Development Phase

- Content submitted and reviewed by WG
- Information compiled into “toolkit” and additional content created as needed
- Reviewed by experts in the field of CD
- Gaps identified and content added
- Continuous revisions, editing, and formatting
- Final product has 9 competencies with 2-5 specific learning outcomes for each

# CD Core Competencies Toolkit

- 1 – Understanding concurrent disorders
- 2 – Identifying concurrent disorders
- 3 – Screening and assessing next steps  
in treatment
- 4 – Understanding medications and  
substances of abuse, and interactions in  
concurrent disorders

# CD Core Competencies Toolkit

- 5 – Recovery, harm reduction, peer support, and motivational interviewing/engagement
- 6 – Best practices for treating CD
- 7 – Preventing relapse and maintaining optimal mental health
- 8 – Assessing risk and intervening in crisis
- 9 – Information sharing and circles of support

## TABLE OF CONTENTS

<b>Glossary of Terms</b>	<b>5</b>	<b>Competency Five: Recovery, Harm Reduction, Peer Support, and Motivational Interviewing / Engagement</b>	<b>148</b>
<b>Competency One: Understanding Concurrent Disorders</b>	<b>7</b>	Outcome 1: Recovery	
Outcome 1: The Complex Nature of Concurrent Disorders		Outcome 2: Harm Reduction	
Outcome 2: Risk Factors and Vulnerable Populations		Outcome 3: Peer Support	
Outcome 3: Prevalence of Concurrent Disorders		Outcome 4: Motivational Interviewing and Engagement	
Outcome 4: The Role of Health Promotion, Resiliency and Protective Factors		References	
Outcome 5: Stigma Concurrent Disorders			
References			
<b>Competency Two: Identifying Concurrent Disorders</b>	<b>32</b>	<b>Competency Six: Best Practices</b>	<b>177</b>
Outcome 1: Common Mental Health Disorders		Outcome 1: Best Practice in Treating Concurrent Disorders	
Outcome 2: Common Substance Use and Gambling Problems		Outcome 2: Local Services and Supports for Concurrent Disorders	
References		References	
<b>Competency Three: Screening and Assessing Next Steps in Treatment</b>	<b>100</b>	<b>Competency Seven: Preventing Relapse and Maintaining Optimal Mental Health</b>	<b>192</b>
Outcome 1: The Importance of Screening		Outcome 1: Triggers and Signs of Relapse	
Outcome 2: How to Complete Screening Tools and Interpret Data		Outcome 2: Relapse Prevention Skills	
Outcome 3: Next Steps Based on Screening		Outcome 3: Healthy Lifestyle in Recovery	
References		Outcome 4: Referral	
		References	
<b>Competency Four: Understanding Medications and Substances of Abuse, and Interactions, in Concurrent Disorders</b>	<b>116</b>	<b>Competency Eight: Assessing Risk and Intervening in Crisis</b>	<b>223</b>
Outcome 1: Common Medications in Treating Mental Illness and Addiction		Outcome 1: Suicide Risk	
Outcome 2: The Effects of Primary Substances Involved in Addiction		Outcome 2: Crisis Management	
Outcome 3: The Role of Opiate Replacement Therapy		Outcome 3: Crisis Response	
Outcome 4: Interactions between Substance Use and Prescribed / Non-Prescribed Medications		References	
References		<b>Competency Nine: Information Sharing and the Circle of Support</b>	<b>242</b>
		Outcome 1: Information Sharing	
		Outcome 2: Information Sharing Policies and Procedures	
		Outcome 3: Involving Family Members and The Circle of Support	
		References	

# Concurrent Disorders Toolkit

CORE COMPETENCIES

*A different today. A better tomorrow.*

# LMS Modules– Development Phase

- Online learning modules developed based on the 9 competencies in the toolkit
- Worked with several consultants to create modules and interactive learning activities
- Design, formatting, and editing completed
- Voice recordings completed
- Files published and sent for testing on LMS
- Testing, editing, and uploading completed\*

# Who is the training for?

- Required training for all frontline clinicians across the province, available to others
- Intended for a multidisciplinary audience
- Timeline for completion depends on DHA/IWK (consult your manager)

# How long will it take?

- Estimated “run-time” is 5.5 hours, will likely take between 9-10 hours in total
- Modules range from 20 minutes to 1 hour and 30 minutes (listed on LMS)
- Can be completed individually via LMS, or during pre-arranged classroom sessions\*

## Concurrent Disorders Toolkit

**Please note that you will require the corresponding Concurrent Disorders Toolkit in order to complete this online module. You may use a hardcopy of the document or a pdf.**

◀ 🔊 || ◌ 🔁 < PREV NEXT >

# Resources

The screenshot shows an e-learning interface with a blue header and a light blue background. On the left is a 'Menu' sidebar with a list of 25 items, where '2. Competency One' is selected. The main content area has an orange background with the text 'Competency 1 (00:09 / 25:14)' at the top left, 'Concurrent Disorders Toolkit' in the center, and 'COMPETENCY ONE' and 'Understanding Concurrent Disorders' in large black font. A 'Resources' panel on the right lists 'Tools, Resources and Interactions' with three items: 'Concurrent Disorders Toolkit Competency 1-9', 'Fact Sheet: Mental Illness and Substance Use...', and 'Introduction: Dual Diagnosis'. At the bottom is a video player with a progress bar, a play button, a volume icon, a refresh icon, and 'PREV' and 'NEXT' navigation buttons.

# Live Demonstration

- <https://elearning.nshealth.ca>
- *But first...*

*A different today. A better tomorrow.*

# A few things to keep in mind...

- Not all slides or interactions have audio
- Audio may be similar to the text but has additional information and examples
- Progress is saved automatically, users can resume where they left off
- User must advance every slide
- Modules do not need to be completed in order however, it is recommended

*A different today. A better tomorrow.*

# Completion of Competencies

- Certificates will be provided to staff once they have completed the training
- Core Competencies training will count for 10 hours of professional development
- Currently working to obtain accreditations from various regulatory bodies
- Can be used as self-approved learning credits for some disciplines

# Additional Information

- The toolkit is a “living document” and is intended to be updated at regular intervals
- Difficult decisions were made regarding which content to include/exclude
- Efforts made to be as concise, yet comprehensive, as possible
- Strived to maintain focus on basic (core) competencies across disciplines

# Additional Information

- Specific steps regarding how to access LMS, login to LMS, add the courses, etc. will be distributed by your managers
- Information regarding reports and obtaining certificates will be sent to DHAs
- Additional hardcopies of CD Toolkit can be ordered, details will be sent to directors

# Comments: Toolkit and LMS

To report errors, broken web-links, or provide comments, please contact:

*[CDToolkit@cdha.nshealth.ca](mailto:CDToolkit@cdha.nshealth.ca)*

# Next Steps for CD Training

# Core Competencies Training

- Version 1.1 of the CD Core Competencies Toolkit is currently in development
- Version 2.0 of modules and toolkit expected to be released within 2-3 years
- Additional modules may be developed

## Next Steps: Advanced Competencies

- Capital Health co-leading project with DHW and working collaboratively with the DHAs/IWK
- Provincial working group established (Nov '13)
- Currently developing intermediate/advanced competencies and sustainable training plan
- Focus on skill development and supervision
- Training will more specialized and offered to a limited number of staff
