

Pathology and Laboratory Medicine Memorandum

To: Physicians and Health Service Directors, Central Zone
From: Dr. Laurette Geldenhuys, Chief of Service, Anatomical Pathology
Geoff Peladeau, Manager, Central Zone Anatomical Pathology
Date: March 31, 2022
Subject: **Resumption of Semen Analysis in Central Zone**

Effective Monday, April 4, 2022, the Central Zone Anatomical Pathology laboratory will resume accepting specimens for semen analysis.

Specimens must be submitted within one hour of collection Monday to Friday and received before 12:00pm. Please note that there is no collection facility on-site. A completed requisition CD1933_11_08 must accompany each specimen.

If you have any questions, please do not hesitate to contact the laboratory supervisor, Tracy Watts, at 902-473-8408.
