

Capital Health

Bedford Waterfront Health Clinic – Family Physician

We are offering a unique opportunity for a Family Physician to join our team in Bedford.

We have a spacious, modern clinic including ample free parking and access to health care professionals all under one roof including:

- Four Family Physicians
- Neurologist
- Psychiatrist
- Gynecologist

The clinic has a fully integrated Nightingale EMR system, and offers a bright and cheerful atmosphere with professionally managed and courteous support staff who cover all aspects of administration including billing.

This is an ideal opportunity to build a practice into a size that is customized for enjoyment of a balanced professional and personal life with no on call shifts. A reduced overhead will be offered for the first few months.

If you have any questions they would like to hear from you.

Please contact Cathie at Email: admin@nsfamdocs.com
