

DISTRICT DEPARTMENT OF FAMILY PRACTICE

Community Council

The District Department of Family Practice **Community Council** partners with the District Chief of Family Practice to address community and system issues as well as to establish the focus and direction of the Department.

Community Council members bring forward issues from their local community in the interest of improving patient care. There are 7 Capital Health communities, or ridings, represented on the Council with the number of representatives determined by the number of constituents in each riding.

Family Physicians who have an issue or concern addressed at Community Council are encouraged to contact their Community Representative.

Members attend quarterly meetings and are compensated at the standard rate.

Are you interested in joining the Community Council? Please contact the DDFP (ddfp@cdha.nshealth.ca or 454-8199)
