

**Diabetes Care Program of Nova Scotia
Evening Symposium:
Pregnancy Test Positive...Time to Think About Diabetes**

(Application approval for MAINPRO-M1 credits pending)

Cunard Centre – Halifax, NS

April 9, 2015 - 6:15 to 9:00 PM
(Registration and Light Dinner at 5:30 PM)

Objectives:

By the end of the symposium, health care providers will be able to:

- Identify women at risk for diabetes in pregnancy and articulate the maternal and fetal risks associated with diabetes.
- Implement the new Nova Scotia recommendations for screening and diagnosis of diabetes in pregnancy and identify the recommended referral pathways.
- Include key management messages (from preconception to postpartum care) in their practice-based setting.
- Apply lifestyle and non-insulin/insulin therapies to care and management for women with GDM throughout the perinatal period.
