pant information (Yes/No)

## IWK HEALTH CENTRE

Each year the Orthopaedic Care Team presents a multidisciplinary Paediatric Orthopaedic Conference. Registrants from Nova Scotia, New Brunswick, Prince Edward Island and beyond are given an opportunity to learn more about paediatric orthopaedics and make contacts in other communities.

### Learning Objectives

1. To provide interdisciplinary primary care education for physicians and practitioners regarding common paediatric musculoskeletal concerns.
2. To network with other practitioners providing orthopaedic care across the Maritimes.
1. To build capacity among community care providers when considering referral to a paediatric tertiary orthopaedic clinic.

This program is supported in part by educational grants from:

Participants are **encouraged** to bring cases to challenge the experts!
