

Family Physician Leaders...

taking family practice to the next level

Medical Director, Community Care

The **Medical Director, Community Care** is an exciting new part-time leadership opportunity within the District Department of Family Practice. The Medical Director will focus on developing strong collaborative working relationships with community-based family physicians and building change management supports, with the goal of enhancing the delivery of quality patient care.

The District Department of Family Practice is the foundation of family practice in Capital Health. Our strong leadership team guides quality and innovative patient care in the community, hospital, long-term care and residential care facilities.

If you are interested in learning more about this, or other, exciting opportunities available, please contact us.

Dr. Rick Gibson, Chief
District Department of Family Practice
