Authors – Occupational Therapy Professional Advisory Council 2013
Vendor lists are often provided to clients/families by Occupational Therapy Staff.

Purpose: to provide a list of vendors to clients and families as a starting point for price comparison. Provision of a list is not intended to be an endorsement of services or products provided by any specific vendor.

Considerations:

- Order of vendors in a geographical area is listed alphabetically.
- Disclaimer added to bottom of each page.
Example: This list is not an endorsement. This is not inclusive of all vendors who may provide equipment or services. Please check yellow page listings for more options www.yellowpages.ca/locations/Nova-Scotia
